

ME-Medical Enterprises Quality Policy

ME-Medical Enterprises is committed to inspiring and supporting its industrial customers' medical technology platforms, by supplying the highest quality and unmatched products and customer support in the area of medical device.

ME-Medical Enterprises' commitment is guided by the following key principles:

1. Customer Focus and Support
2. Ensure our customer's (both healthcare professionals and patients) requirements are known and provide all customers with:
3. Unmatched medical device expertise and technical support
4. Best-in-class responsiveness and service, support, and troubleshooting.
5. Routine measurement and analysis of customer satisfaction related to ME-Medical Enterprises medical device and services.

Products

ME-Medical Enterprises shall design, develop, and manufacture products in the area of medical technologies which are:

Innovative solutions for leading edge medical technologies

Of the highest medical device quality, reliability, and purity

Offer the highest value to our customers, both healthcare professionals and patients.

Compliance and Quality Management System

Develop systems, processes and assure employee training, which enables us to:

Meet all applicable local and global requirements.

Meet the highest standards of compliance for our business in the area of medical device.

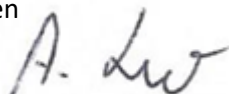

Refine performance of Quality Management System (QMS).

This policy statement is approved by ME-Medical Enterprises, integrated in the Quality Manual and communicated to all employees, suppliers, customers, and other relevant parties.

This policy is applied as the basis for setting and reviewing quality objectives, in accordance with the ISO 13485:2016 Standard per ME-Medical Enterprises certification #: MD 687160.

Dr. Avigdor Lev—CEO Medical Enterprises
